ABOUT MY FAMILY

INTRODUCTION (MESSAGE FROM THE AUTHOR)

This book attempts to document the history of the RENZE Family in South Africa, stemming from our progenitor Louis RENZE and his wife, Elizabeth Maria RENZE (born NUCLEY). It also includes the families that were married into the RENZE Family.

All the primary information I have recorded within this work is based on fact and is recorded in the Primary Resources in a separate section of this book (see contents). There is also a full reference Bibliography to all Places, Events and People listed throughout the book.

I have excluded the dates for anyone born within the last fifty years, died within the last fifty years or is still alive.

The death of my father, Charles Leonard RENZE in 2010, made me think about what is important to me. What is it that I wanted to give to my own children one day? And it happened to be exactly what he had been silently teaching me all his life, in his own way, in the way that only he could, without forcing his thinking down my throat. The same thing that he taught all of us as children. And most probably the same thing taught to him by his father and his father's father.

I realized that the conversations I had had with him on family and history of our family was important to him. And this was important to me too. Not because of the old coloured saying "All coloureds want to be connected to some German history", but because I wanted to know where I come from. Why I am who I am. Therefore, I decided to put together something that could be passed on from generation to generation, so that no-one will forget where they came from. Where we all as RENZE descendants came from. Who our ancestors were, whether it be something great or something that they were ashamed of. All those events shaped us as a family and defined what and who we are today. Through this documented research, I hope to teach our children how to understand themselves through their origins. I do this because I discovered during the process of family history research what it means for me to be the person that I am.

I cannot stress enough to those of you who read this research, the importance of asking questions and listening to the older generations who surround you. Record their stories while they are alive to tell the tales: don't wait until it's too late. Don't think that they do not have a story to tell. Speak to them. You would be surprised to find out what they have to tell you. The history they can give you of who YOU are.

Little meat for the bones was found for some branches of the entire family tree, not that these branches don't have a history; it's trying to locate a storyteller to pass that history on. Other families had storytellers who were thrilled to help out by contributing what they could.

And for this, I thank them. Our ancestors thank them. Future generations thank them.

If there is anyone who requires information or would like to collaborate on other families as connected to mine, I would be glad to hear from you.

"Do not forget those who have gone before you, in whose footsteps you now tread" – Walter Karl RENZE (2012)

SEVEN DAYS IN OPEN BOAT Ex-fisherman remembers

A man who once spent seven days at sea in an open rowing boat today celebrated his golden wedding.

He is Mr. William George FROST, 73, a well-known fisherman of 18 Wren Street, Korsten, Port Elizabeth, who 50 years ago, married the now silver-haired Mrs. Margaret FROST, 73.

"I was blown out to sea during a storm, while I was fishing", he said. The storm lasted for several days before it eventually blew itself out.

"By the time I managed to get back to land I had been at sea seven days."

Many friends and relatives came to see them at home.

Mrs. FROST said: "My husband and I were married at St. Paul's in Port Elizabeth. That was in 1909."

Gentle Smile

"I was born in Somerset East, but apart from that I have lived in Port Elizabeth all my life," she added with a gentle smile.

"My husband was born in Port Elizabeth at North End, and has never been outside the city."

Mr. FROST, his face unmarred by many years at sea, said most of his life had been spent fishing.

"My father and mother owned five small fishing boats, and I started work for them when I was 11 years old.

"In those days you were lucky if you got a penny a bunch for the fish you caught," he said.

"My father, Stephen Josias, was the first whaler in Port Elizabeth. He died in 1907. His grandfather came out with the 1820 Settlers," he added.

Mr. FROST retired a year ago, and though they are celebrating their golden wedding, Mrs. FROST, with a twinkle in her eye, said: "I still feel young enough to rock 'n roll with anyone."

There are five children in the family. Two daughter and three sons, who live in Port Elizabeth. The one daughter, Evelyn, is a nurse at the Livingstone Hospital.

Summary Notes from Cape Supreme Court:

File C.S.C. 2/6/1/350, 20 Elizabeth Annie FROST (born RENZE)

This is a petition to the Cape Supreme Court, dated 25.1.1909 at Port Elizabeth, by Elizabeth Annie RENZE in her capacity as Executrix Testamentary regarding the joint will and Estate of herself and her deceased husband, Josias who died in Port Elizabeth on 27.6.1908.

The only assets in the Estate were 3 fishing boats and some landed property in Korsten, Port Elizabeth and in Broad Street Port Elizabeth.

No cash was left in the joint Estate and the only other funds were credits of £95 owing to the Estate. The debts of the Estate far exceeded the value of these assets and Elizabeth was petitioning the Court to be allowed to keep the assets

concerned and not be forced to dispose of these assets left to her in terms of the joint will (The marriage was in Community of Property), as these were needed for her to continue to make a living and to try to pay off the Estate's debts. There were also 7 children to be provided for:

- Louis Stephen FROST (Major)
- William George FROST (Major)
- Alfred Josias FROST
- Josephine Susannah FROST
- Ernest Alexander FROST
- Arthur James FROST
- Phillip Johannes FROST (No's 3 to 7 above were all Minors.)

She also was petitioning to be allowed to raise a loan of £120 on the Mortgage Bond still being paid off on their home and stated that she had no other means of surviving and no money to deal with the Estate's debts.

Letters of support for her petition from the Revd FLACK, Pastor of the Church where the family worshipped, and also one from the Deputy Mayor of Port Elizabeth, John Chambers KINGLEY were also submitted to the Court.

A Statement from the Master's Office in Cape Town dated 12.2.1909 supported her petition. After due consideration, the Court acceded to her petition by means of a Resolution dated 23.2.1909 and left that Office to decide on the exact amount of the loan being sought and the interest the petitioner would need to pay when making repayments.
